

EXPO ELECTRONICA : ReFLEX CES is exhibiting its newest high-speed FPGAs boards

GAMMA booth, April 25-27, 2017, Moscow, Russia

MOSCOW – The 20th International Exhibition of electronic components, modules and systems is held at Crocus Expo in Moscow, Russia.

This tradeshow provides the perfect platform for ReFLEX CES to showcase its expertise in the design and manufacturing of complex FPGA boards, and especially the 1st Arria 10 SoC System-On-Module, named “Achilles”.
